## Data identification

### Abstract

This dataset includes data on individual waste water treatment plants and collecting systems without UWWTP, their localisation, capacity and actual load treated, type of treatment, aggregated data on the performance of plants. The table T\_UWWTP\_Agglo (uwwtd\_uwwtp\_agglo\_v4.txt) is a connection table combining data on agglomeration and waste water treatment plants allowing reporting of situations where the ratio agglomeration:UWWTP is 1:n or m:1. Vector database of the UWWTD, Treatment Plants was compiled by the national authorities from the spatial data submission reported by local authorities in the framework of implementation of Directive 91/271/EEC
