Data identification

Abstract

This dataset contains information on agglomerations with generated load 2000 P.E., including names, coordinates, generated load and information whether the load generated is collected through collecting system or addressed via Individual Appropriate Systems (IAS) or not collected not addressed via IAS. Vector database of the UWWTD, Agglomerations was compiled by the national authorities from the spatial data submission reported by local authorities in the framework of implementation of Directive 91/271/EEC
